M2 Terrace: -

Address: Benalmadena, Málaga

Completed in 2013 was designed to create a cosy and exclusive home where beautiful views are present, enhancing and improving each of the rooms.

We went on road with pine trees and small ponds and waterfalls.

The House welcomed us in nice distributor and a big wooden door carved, which invites to come into lounge and the dining room, where we can sit down to enjoy the spectacular sea view, only improved from the terrace where you can sit and spend the hours.

On this floor is the large kitchen, modern and fully equipped with breakfast area and porch with cosy outdoor dining area and large pantry.

This plant is also the magnificent master bedroom with Jacuzzi overlooking the sea, bathroom with sauna and dressing room.

We went down to 3 bedrooms, two of them share a room with dressing, 2 bathrooms.

The laundry is located on the back.

Going down we arrived at great Hall of leisure, a large open space with indoor BBQ and kitchen for large meetings or spend the day with the family, enjoying the swimming pool which is located through glass doors.

The swimming pool has natural lake design and a big toboggan that invite to spend the day playing and enjoying.

Walking through the garden you can climb to wooden pallets on pines to expand the views or go to the playground with see saw and trampoline for children We also have golf driving range with three holes
Lovely apartment with independent entrance, livingroom with sea view, kitchen, 2 bedrooms and a bathroom.

It is nearly finished - now for more cold days heated swimming- pool is being built that will have the best views of the sea.

You can't miss, call now to come visit the house!
